

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

Claims 1-24. (canceled).

25. (New): A white light-emitting device comprising an anode, at least one organic compound layer containing a light-emitting layer, and a cathode,

wherein the light-emitting layer comprises red, green, and blue light-emitting materials in same light-emitting layer, and wherein at least one of the light-emitting materials is an orthometallated complex.

26. (New): A white light-emitting device of claim 25, wherein at least two of the light emitting materials are orthometallated complexes.

27. (New): A white light-emitting device of claim 25, wherein all of the light-emitting materials are orthometallated complexes.

28. (New): A white light-emitting device of claim 25, wherein the red, green, and blue light-emitting materials emit light, thereby obtaining white light.

29. (New): A white light-emitting device comprising an anode, at least one organic compound layer containing a light-emitting layer, and a cathode,

wherein the light-emitting layer comprises a red light emitting layer comprising a red light-emitting material, a green light emitting layer comprising a green light-emitting material,

AMENDMENT UNDER 37 C.F.R. § 1.111

U.S. Appln. No. 09/845,356

Attorney Docket No. Q64324

and a blue light-emitting layer comprising a blue light-emitting material in different light-emitting layers, and wherein at least one of the light-emitting materials is an orthometallated complex.

30. (New): A white light-emitting device of claim 28, wherein at least two of the light-emitting materials are orthometallated complexes.

31. (New): A white light-emitting device of claim 28, wherein all of the light-emitting materials are orthometallated complexes.

32. (New): A white light emitting device of claim 28, wherein the red, green, and blue light emitting materials emit light, thereby obtaining white light.
